PRESS RELEASE · ACCESSWIRE · 31 AUG 2026

Agent Buddi launches real estate agent safety features for REALTOR® Safety Month

Lead screening, distress detection and live-location emergency calling, released free to agents for REALTOR® Safety Month.

To mark REALTOR® Safety Month, Agent Buddi announced the release of its agent safety suite, built to protect agents in the moments they are most exposed: meeting a new lead and showing a property alone.

The suite includes screening on new leads, a safe-word triggered distress flow, and the ability to reach emergency services with the agent's live location.

The announcement was distributed on the ACCESSWIRE newswire and picked up by more than 700 outlets, including WFLA News Channel 8, Morningstar and News-Press NOW. Read the full release at the [source link](#).
